

Allowable CPT Codes for the Illinois Breast and Cervical Cancer Program
FOR INTERNAL USE ONLY
Effective January 01, 2011

- Screening services should include CBE, pelvic exam, mammogram and Pap test.
- Every screening cycle must include one procedure that is reimbursed using IBCCP funds with BCCP selected as the payor on SV01.
- Providers must accept the CPT rate as full payment for services. Balances may not be billed to the client.
- IBCCP clients are responsible for paying the bills for CPT codes not included on this list or not reimbursed by IBCCP. A written estimate of the additional charges must be provided to the client by the provider/hospital/clinic prior to being rendered. Providers are encouraged to write-off the charges not reimbursed by IBCCP.
- All services must be provided on an outpatient basis. CDC does not allow for payment of inpatient services.
- The reimbursement rates are based on the highest allowable Medicare rates for Illinois. Total payment is not to exceed these approved rates. If a provider bill is less than the approved rates only reimburse the amount of the bill.
- Payment amounts **CANNOT** be entered into Cornerstone until the bill is received.
- Reimbursement for these codes are according to the established technical and professional components described below:
 - ◎ **TC** = Technical Component or the cost of performing the test or procedure at the hospital or outpatient surgery center or clinic and reimbursed to those sites.
 - ◎ **26** = Professional Component or the cost of interpretation of the test or procedure by a physician including radiologists or pathologists when that person is not an employee of the hospital or free standing surgery center.Each fee component rate is established individually by Medicare; therefore the TC and 26 fees may not add up to equal the total fee.
- Refer to Current Procedural Terminology (CPT) 2010 Standard Edition, American Medical Association, for detailed explanation of codes.
- Remember, when entering “split” codes into Cornerstone, both results codes need to match.
- For women enrolled in Category XP (women with incomes above 250% of FPL), only "State" or "Other" may be entered as Payor Codes in Cornerstone, even for CPT Codes listed as "F."
- If the Medical Provider deviates from CDC approved standards, contact the Quality Assurance Nurse for prior approval.
- Refer to page 12 for Global Billing information.

CPT Code	Global Billing Info	Office Visits – Description and Payers (F = Federal/BCCP, S = State)		Fee	Instructions for Use
99201	XXX	Office Visit, New Patient - Breast Exam Only	F S	\$44.39	<p>Paying for an office visit with another procedure, such as a colposcopy, is not allowed.</p> <p>Payment of CBEs</p> <ul style="list-style-type: none"> • State Funding – symptomatic women ages 19-34 • Federal Funding (IBCCP) – All women 35-64 (35-39 receiving a CBE MUST have cervical services) <p>When a repeat CBE is performed during the same screening cycle it should be paid as a 99212 Office Visit and coded as a BCD even if the same physician is performing the repeat CBE. The PA30 should be completed as “F1” Diagnostic Work-up Complete. If a repeat CBE is performed as a 6 month follow up, it should also be paid as a 99212 and coded as a BCS. If the original CBE was done by an NP or PA, it is preferred that the repeat CBE is done by a physician.</p> <p>A post- op visit must be billed as 99212 and coded as a BCD to incur the least expensive of the office visit codes. IBCCP only pays for 1 post op visit for those CPT codes when a visit is not included. The visit must be completed within the 60 day screening cycle to avoid an MDE error. Post op visits due to surgical complications are the responsibility of the surgeon and should be written off.</p>
99202	XXX	Office Visit, New Patient - Pelvic Exam Only	F S	\$76.58	
99203	XXX	Office Visit, New Patient - Breast and Pelvic Exam	F S	\$112.18	
99212	XXX	Office Visit, Established Patient - Breast or Pelvic Exam Repeat CBE (Considered a Dx Procedure) – 10 minutes	F S	\$44.75	
99213	XXX	Office Visit, Established Patient - Breast and Pelvic Exam	F S	\$74.37	

CPT Code	Global Billing Info	Consultation Visits – Description and Payers (F = Federal/BCCP, S = State)		Fee	Instructions for Use
99202	XXX	Office Consultation Visit (Considered a Dx Procedure) – 20 minutes	F S	\$76.58	Usually, the presenting problem(s) are of low complexity.
99203	XXX	Office Consultation Visit (Considered a Dx Procedure) – 30 minutes	F S	\$112.18	Usually, the presenting problem(s) are of low complexity.
99204	XXX	Office Consultation Visit – (Considered a Dx Procedure) - 45 minutes	F S	\$172.71	If used for breast or cervical follow-up visits, the presenting problem(s) must be of moderate complexity.

CPT Code	Global Billing Info	BREAST - Radiology Codes - Mammography Description and Payers (F = Federal/BCCP, S = State)		Fees			Instructions for Use
				TC	26	Total	
77055	XXX	Diagnostic Mammogram, Unilateral	F	\$55.17	\$37.64	\$92.80	<p>State funding - Asymptomatic women 40-49 years old (to include screening mammograms for this age group).</p> <p>Federal funding (IBCCP) – All women 50-64 years old and all symptomatic women (to include diagnostic mammograms for all age groups). If a diagnostic mammogram is the ONLY mammogram done for short term follow-up, the SV01 screen must be completed as a BCS and the PA30 must be completed as “P2” diagnostic work-up not planned.</p> <p>If a diagnostic mammogram is the only mammogram done following an abnormal CBE, additional diagnostic must be completed. (Refer to the Breast algorithms).</p>
77056	XXX	Diagnostic Mammogram, Bilateral	F	\$71.76	\$46.78	\$118.55	
77057	XXX	Screening Mammogram, Bilateral	F S	\$49.39	\$37.64	\$87.03	
G0202	XXX	Screening Mammogram, Digital, Bilateral	F S	\$112.18	\$37.64	\$149.82	
G0204	XXX	Diagnostic Mammogram, Digital, Bilateral REMEMBER if a client has a discrete palpable mass (B3) further diagnostic work-up is required, either breast ultrasound or office consult visit or repeat CBE (99212).	F	\$132.74	\$46.42	\$179.17	
G0206	XXX	Diagnostic Mammogram, Digital, Unilateral REMEMBER if a client has a discrete palpable mass (B3) further diagnostic work-up is required, either breast ultrasound or office consult visit or repeat CBE (99212).	F	\$104.24	\$37.64	\$141.88	

CPT Code	Global Billing Info	BREAST - Radiology Codes - DIAGNOSTICS Description and Payers (F = Federal/BCCP, S = State)		Fees			Instructions for Use	
				TC	26	Total		
76098	XXX	Radiological exam, surgical specimen		F	\$12.23	\$8.80	\$21.02	
76645	XXX	Ultrasound breast(s), Bilateral or Unilateral		F	\$66.35	\$29.52	\$95.88	
76942	XXX	Ultrasonic guidance for needle placement (e.g., biopsy aspiration or localization device); imaging supervision and interpretation		F	\$174.96	\$36.23	\$211.19	Can be used with CPT Codes 10022, 19000, 19102, 19103, 19290, 19291.
77031	XXX	Stereotactic localization guidance for breast biopsy or needle placement (e.g. for wire localization), <u>each lesion</u> ; radiological supervision and interpretation		F	\$86.92	\$87.16	\$174.08	Can be used with CPT Codes 10022, 19000, 19101, 19102, 19103, 19290, 19291.
77032	XXX	Mammographic guidance for needle placement, breast, each lesion		F	\$30.27	\$29.90	\$60.17	Can be used with CPT Codes 10022, 19000, 19102, 19103, 19290, 19291.

For radiological lesion codes 76098, 77031, 77032, IBCCP will pay for no more than 3 lesions per breast.

CPT Code	Global Billing Info	BREAST - Radiology Codes - DIAGNOSTICS NOT PAID BY IBCCP OR STATE FUNDS Description and Payers (F = Federal/BCCP, S = State)		Fees			Instructions for Use	
				TC	26	Total		
77053	XXX	Mammary ductogram or galactogram, single duct, radiological supervision and interpretation (Not paid by IBCCP or State funds)		∅	\$53.72	\$18.67	\$72.39	Not reimbursed through IBCCP. These codes are used to document diagnostic workup only.
77054	XXX	Mammary ductogram or galactogram, multiple duct, radiological supervision and interpretation (Not paid by IBCCP or State funds)		∅	\$73.93	\$24.62	\$98.55	
77058	XXX	Breast MRI, Unilateral (Not paid by IBCCP or State funds)		∅	\$567.18	\$87.92	\$655.10	
77059	XXX	Breast MRI, Bilateral (Not paid by IBCCP or State funds)		∅	\$567.18	\$87.92	\$655.10	

CPT Code	Global Billing Info	BREAST - Surgical Codes		Fee	Instructions for Use
		Description and Payers (F = Federal/BCCP, S = State)			
10021	XXX	Fine Needle Aspiration (FNA) without imaging guidance	F	\$156.77	Surgical supplies are allowed. May be paid to physician and outpatient facility.
10022	XXX	Fine Needle Aspiration (FNA) with imaging guidance	F	\$148.07	Surgical supplies are allowed. May be paid to physician and outpatient facility. Can be used with CPT Code 76942, 77031, 77032.
19000	000	Puncture aspiration of breast cyst	F	\$118.02	Preoperative testing and surgical supplies are allowed. May be paid to physician and outpatient facility. Can be used with CPT Codes 76942, 77031, 77032.
19001	000	Puncture aspiration of breast cysts, <u>each additional cyst</u>	F	\$29.26	Must be used with 19000.
19100	000	Breast biopsy, percutaneous, needle core, not using imaging guidance	F	\$157.69	Preoperative testing and surgical supplies are allowed. May be paid to physician and outpatient facility.
19101	010	Breast biopsy, <u>open incisional</u>	F	\$361.61	Preoperative testing, anesthesia, and surgical supplies are allowed. May be paid to physician and outpatient facility.
19102	000	Breast biopsy, percutaneous needle core, using imaging guidance	F	\$230.62	Preoperative testing and surgical supplies are allowed. May be paid to physician and outpatient facility. Can be used with 76942.
19103	000	Breast biopsy, percutaneous automated vacuum assisted or rotating biopsy device using imaging guidance (Mammatome)	F	\$591.69	Preoperative testing and surgical supplies are allowed. May be paid to physician and outpatient facility. Can be used with CPT Codes 19102, 76942, 77031, 77032.
19120	090	Excision of cyst, fibroadenoma, or other benign or malignant tumor, aberrant breast tissue, duct lesion, nipple or areolar lesion; <u>open</u> ; one or more lesions	F	\$530.79	Preoperative testing, anesthesia, and surgical supplies are allowed. May be paid to physician and outpatient facility. Cannot be billed with 19125 unless a separate lesion.
19125	090	Excision of breast lesion identified by preoperative placement of radiological marker, single; open; lesion	F	\$590.20	Preoperative testing, anesthesia, and surgical supplies are allowed. May be paid to physician and outpatient facility. Cannot be billed with 19120 unless a separate lesion.
19126	ZZZ	Excision of breast lesion identified by preoperative placement of radiological marker, open; <u>each additional lesion separately</u> identified by a preoperative radiological marker	F	\$187.11	Must be used with CPT Code 19125. Limit 2 additional lesions.

For surgical biopsy codes 19100, 19101, 19102, 19120, 19295 IBCCP will pay for no more than 3 lesions per breast.

CPT Code	Global Billing Info	BREAST - Surgical Codes		Fee	Instructions for Use
		Description and Payers	(F = Federal/BCCP, S = State)		
19290	000	Preoperative placement of needle localization wire, breast	F	\$171.61	May be paid to physician and outpatient facility.
19291	ZZZ	Preoperative placement of needle localization wire, breast, <u>each additional lesion</u>	F	\$72.68	Must be used with CPT Code 19290. Limit 2 additional lesions.
19295	ZZZ	Image guided placement of percutaneous metallic localization clip during breast biopsy	F	\$96.30	May be paid to physician and outpatient facility. Can be used with CPT Codes 10022, 19102, 19103.
<u>For surgical biopsy codes 19100, 19101, 19102, 19120, 19295,</u> IBCCP will pay for no more than 3 lesions per breast.					

CPT Code	Global Billing Info	CERVICAL - Screening Codes		Fee	Instructions for Use
		Description and Payers	(F = Federal/BCCP, S = State)		
88141	XXX	Pap Test, (Liquid Based or Conventional), cervical or vaginal, reported in the Bethesda System, requiring physician interpretation	F S	\$31.15	This code cannot be used unless interpretation by a physician is actually performed and documented. This does not include routine quality assurance review by pathologist. This CPT Code <u>must</u> be used with 88142 and 88164.
88142	XXX	Pap Test, cervical or vaginal, Liquid Based, thin prep, manual screening under physician supervision	F S	\$28.51	ONLY allowed every 2 years. If provider chooses to do annually, IBCCP will not reimburse. After 3 consecutive normal/negatives in 5 year period then ONLY allowed every 3 years. CPT codes 88143, 88174, 88175 must be reimbursed at the applicable 88142 Medicare reimbursement rate (or less based on bill received).
88164	XXX	Pap Test, Conventional slides, cervical or vaginal, reported in the Bethesda System, manual screening under physician supervision	F S	\$14.87	Allowed annually until 3 consecutive normal/negatives in a 5 year period then ONLY allowed every 3 years.

CPT Code	Global Billing Info	CERVICAL - Diagnostic Codes		Fee	Instructions for Use
		Description and Payers	(F = Federal/BCCP, S = State)		
57452	000	Colposcopy of cervix including upper/adjacent vagina without biopsy or Endocervical Curettage (ECC)	F	\$121.78	<p>Follow the ASCCP guidelines for appropriate screening and follow-up to abnormals.</p> <p>May be paid to physician and outpatient facility.</p> <p><u>Paying for an office visit with another procedure, such as a colposcopy, is not allowed.</u></p> <p>Surgical supplies are allowed.</p> <p>CDC does not allow payment of a Pap on the same day as a colposcopy.</p> <p>DO NOT REPORT 57452 in addition to 57454-57456.</p> <p>DO NOT REPORT 57456 with 57461.</p> <p>Polypectomies are not covered unless they block the cervical os and/or prevent obtaining an adequate Pap test.</p> <p>CPT code 57505 is not reimbursable if done as a part of a dilation and curettage.</p> <p>Federal Funding (IBCCP): When procedures 57460, 57461, 57520, 57522 are done as Diagnostic for the following:</p> <ul style="list-style-type: none"> • HSIL Pap Test but negative CIN 1 on colposcopy or biopsy • AGC but negative colposcopy • Positive ECC – ungraded • Micro-invasive cancer on biopsy (LEEP to diagnose deeply invasive cancer, if present) • If LEEP or Cone done for CIN2 & CIN3 without colposcopy enter as a diagnostic on Cornerstone. DO NOT enter as treatment
57454	000	Colposcopy of the cervix with biopsy and endocervical curettage	F	\$173.66	
57455	000	Colposcopy of the cervix with biopsy	F	\$160.91	
57456	000	Colposcopy of the cervix with endocervical curettage	F	\$152.13	
57460	000	Endoscopy with Loop Electrode biopsy(s) of the cervix	F	\$322.78	
57461	000	Endoscopy with Loop Electrode Conization biopsy of the cervix	F	\$364.58	
57500	000	Biopsies or Local Excision of Cervical Lesion, single or multiple	F	\$143.94	
57505	010	Endocervical Curettage (ECC)	F	\$113.64	
57520	090	Conization of cervix, with or without fulguration, with or without dilation and curettage, with or without repair, cold knife or laser	F	\$343.95	
57522	090	Loop Electrode Excision Procedure (LEEP)	F	\$298.11	

CPT Code	Global Billing Info	CERVICAL - Diagnostic Codes Description and Payers (F = Federal/BCCP, S = State)	Fee			Instructions for Use	
			TC	26	Total		
58100	000	Endometrial Sampling (Biopsy) with or without endocervical sampling (Biopsy), without cervical dilation	F		\$123.83	<p>May be paid to physician and outpatient facility. Preoperative testing and surgical supplies are allowed. Abnormal bleeding alone is not justification for endometrial biopsy per CDC.</p> <p>Criteria for Endometrial Sampling: IBCCP will pay for the following:</p> <ul style="list-style-type: none"> AGC Pap for women age 35 and over → endometrial biopsy covered AGC Pap for women under 35 but abnormal bleeding/anovulation → endometrial biopsy covered Post-menopausal women with a negative Pap, but endometrial cells are present <p>IBCCP CANNOT pay for the following:</p> <ul style="list-style-type: none"> Post-menopausal <u>bleeding</u> and a negative Pap (required to look for endometrial hyperplasia/cancer). Abnormal Pap (Not AGC) with abnormal bleeding at any age. <p>Use 58110 in conjunction with 57452, 57454, 57455, 57456, 57460, 57461.</p>	
58110	000	Endometrial Sampling (Biopsy) performed in conjunction with colposcopy	F		\$54.55		
58558	000	Hysteroscopy with Endometrial Biopsy	S		\$402.64		
			Fees				
			TC	26	Total		
76856	XXX	Ultrasound, pelvic (nonobstetric), real time with image documentation; complete	S	\$97.02	\$36.61	\$133.63	Only allowable after diagnosis of cervical cancer to determine metastasis in the pelvic region.

87621	XXX	<p>HPV (Human Papillomavirus) testing (Considered a Diagnostic Procedure)</p> <ul style="list-style-type: none"> Hybrid Capture II from Digene (High Risk Typing, only) Cervista HPV HR 	F		\$49.39	<p>If an HPV test is performed as follow-up to an ASCUS Pap test, <u>and the HPV test is positive</u>, further diagnostic work-up must be performed.</p> <p>Reimbursement for HPV testing is ONLY allowed:</p> <ul style="list-style-type: none"> For a negative Pap test, with no prior abnormality, lacking endocervical cells/borderline cellularity/obscuring factors. An HPV test can be done at 12-months (or re-Papped at 12-months, as stated above). As reflex testing to an ASCUS Pap result. “Reflex” testing refers to testing either the original LBC residual specimen or a separate sample cocollected at the time of the initial screening visit for HPV testing. As initial workup of women with AGC (in combination with Colposcopy and Endometrial Sampling if >35 years or at risk for endometrial neoplasia, see ASCCP algorithms) For Post-Colposcopy management at 12-months in the following: <ul style="list-style-type: none"> ASC-US HPV positive ASC-H, no CIN 2/3 LSIL, no CIN 2/3 Subsequent Management of AGC (not initial workup), refer to ASCCP algorithms for HPV +/- status. <p>Reimbursement for HPV testing is NOT ALLOWED:</p> <ul style="list-style-type: none"> For adjunct HPV testing, without knowing the Pap result. If a Medical Provider routinely performs adjunct HPV testing with all Pap tests and the Pap result is negative, with a positive high risk HPV identified, IBCCP will ONLY reimburse for a 12-month repeat Pap and HPV test, regardless of testing modality (ie. LBC). No other diagnostic reimbursements are allowed through IBCCP.

CPT Code	Additional Procedures Description and Payers (F = Federal/BCCP, S = State)		Fee	Instructions for Use
99144	Conscious Sedation	S	Limited to \$200.00	<p>Conscious Sedation is a drug induced depression of consciousness. Patients will still respond to verbal and tactile stimulation. No artificial airway or ventilation is required. This code can be used with CPT codes 57454, 57455, 57456, 57460, 57461, 57500, 57505, 57520, 57522, 58100, 58110 and 58558. Conscious sedation should only be used for these procedures when absolutely necessary.</p> <p>When both a Certified Registered Nurse Anesthetist (CRNA) and an Anesthesiologist bill for the procedure, the amount must be split between the two. This amount is NOT reimbursed to the hospital unless the CRNA or anesthesiologist is a hospital employee and will not be submitting a separate bill.</p>
00400	General Anesthesia	F	Limited to \$300.00	<p>General anesthesia is unconscious sedation rendered by administration of intravenous medication and/or gas inhalation.</p> <p>This code can be used with CPT codes 19101, 19120, or 19125.</p> <p>When both a Certified Registered Nurse Anesthetist (CRNA) and an Anesthesiologist bill for the procedure, the amount must be split between the two. This amount is NOT reimbursed to the hospital unless the CRNA or anesthesiologist is a hospital employee and will not be submitting a separate bill.</p>
99070	Surgical Supplies	F S	Limited to \$500.00	<p>This code is used to reimburse facilities when procedures are performed in an outpatient setting. Allowable charges include surgical supplies and pharmacy supplies. This code may be used in conjunction with the following procedures: 10021, 10022, 19000, 19100, 19101, 19102, 19103, 19120, 19125, 57460, 57461, 57520, 57522, 58100, 58110 or 58558.</p> <p>Surgical supply fees should be reimbursed to the hospital or freestanding surgical clinic where the procedure was performed. A separate line item indicating surgical supplies, operating room supplies or similar language should be noted on the bill received.</p> <p>Reimbursement of \$50.00 is allowed for minor procedures including CPT Codes 57454, 57455, 57456, 57500, 57505 and 57511. The charge must be listed on the bill received. It is not an automatic payment to the facility or provider. This charge should be used with caution to ensure that programs do not reimburse for supplies, the cost of which, has already been accounted for in another clinical charge.</p> <p>State Funding: When the procedure can only be paid using state funds, reimbursement for surgical supplies MUST be paid with state funds as well.</p>

GLOBAL BILLING INFORMATION CODE

Code	Explanation
	The global period is the number of days following a procedure during which all services furnished by the physician are included in the reimbursement for that procedure. This includes postoperative visits and complications following a procedure including all additional medical and/or surgical services required of the physician (not resulting in a return trip to the operating room) during the designated global period.
XXX	The global period concept does not apply to the code.
ZZZ	These represent add-on codes. This code is related to another service and is always included in the global period of the primary service.
0 days	Endoscopic or minor procedure without an associated global period.
10 days	Minor procedure that has an associated 10 day global period, where any postoperative office visit is included in the procedure fee.
