Sharing Health Assessment Results Electronically

Parameters of the Query

IPLAN Round: 2 **1**
 Departments: 2 **2** · Alexander County Health Department
 Region: All 3 **3**
 Priorities: All 4 **4**
 Search Term: 5 **5** No search term specified

Results of the Query

Number of health priorities reported below: 1 **6**

1. **IPLAN Round.** Lists the IPLAN round(s) selected.
2. **Departments.** Lists the health departments selected.
3. **Region.** Lists the IDPH regions selected.
4. **Priorities.** Lists the priority names selected.
5. **Search Term.** Lists the search terms used if a search term is entered.
6. **Number of health priorities reported below.** Lists the total number of health priorities in the report.

SHARE Report: Quick List

Record	Local Health Department Name	Region	Priority Name	Round
1 (view) 7	Alexander County Health Department 8	Marion 9	See SOUTHERN SEVEN HEALTH DEPT. 10	2 11

7. **Record.** Counts the records in the report list.
8. **Local Health Department Name.** Lists the health department that submitted the priority name.
9. **Region.** Lists the IDPH region.
10. **Priority Name.** Lists the health priority submitted.
11. **Round.** Specifies the round number in which the health priority was submitted.

SHARE Report: All Information

Department: Alexander County Health Department **1**
Region: Marion **2**
Phone Number: (618) 634-2297 **3**
E-mail: hdstart@accessus.net **4**
Website: <http://www.southern7.org/> **5**

Record **1** of **1** **6**
[Top of page](#)
[Back](#) **7**

Round:	2	8
Priority:	<i>Name of submitted health priority</i>	9
Outcome Objective:	<i>Details of the outcome objective</i>	10
Impact Objective:	<i>Details of the impact objective</i>	11
Interventions:	<i>Details of the intervention strategies</i>	12

1. **Department.** Lists the health department that submitted the priority.
2. **Region.** Lists the IDPH region.
3. **Phone Number.** Specifies the local health department's phone number.
4. **E-mail.** Specifies the local health department's e-mail address. This line is omitted if an e-mail address is not available.
5. **Website.** Lists the local health department's web site address. This line is omitted if a web site is not available.
6. **Record #₁ of #₂.** Lists the health priorities contained in the report; the first number represents the current record and the second number represents the total number of health priorities in the report.
7. **Top of page, back.** (Also included but not shown are "previous record" and "next record".) Provides navigation through the report.
8. **IPLAN Round.** Specifies the IPLAN round in which the priority was submitted.
9. **Priority.** Specifies the name of the health priority submitted by the health department.
10. **Outcome Objective.** Specifies the outcome objective for the health priority.
11. **Impact Objective.** Specifies the impact objective for the health priority.
12. **Interventions.** Specifies the intervention strategies for the health priority.

IPLAN Data System Report Layout

4.14.04 LUNG CANCER AGE-ADJUSTED INCIDENCE RATE ¹
(5-year average age-adjusted rate and 5-year number) ²

	YEAR: 94-98 ³	SANGAMON ⁴	Illinois ⁵	U.S. ⁶	YEAR ⁷		
Total					2010 ⁷		
Female ⁸		62.0 ⁹	360 ¹⁰	54.2 ¹¹	17,781 ¹²	51.0 ¹³	N/A ¹⁴
Male		115.5	458	102.8	25,186	87.4	N/A

Note: Rates are per 100,000, age-adjusted to 2000 US standard. ¹⁵
If number < 15, no rates calculated.

1. Indicator code and name.
2. Specifies the data represented in the report. In this example, #9, #11 and #13 are 5-year average age-adjusted rates and #10 and #12 are 5-year numbers.
3. Specifies the data year.
4. Specifies the county/community selected and serves as the column heading for the county/community data.
5. Column heading for Illinois data.
6. Column heading for U.S. data, if U.S. data is available.
7. Column heading for Healthy People 2010 Objective.
8. Data categories. Data for each category is provided.
9. The rate or percent data value for the county/community for the year specified. In this example, these numbers are 5-year average age-adjusted rates, determined by using #1 and #2.
10. The number of events that occurred for the county/community. In this example, these numbers represent 5-year numbers, also known as the number of events, occurring in the year specified in #3. Use #1 and #2 to determine the data label.
11. The rate or percent data value for the state of Illinois. In this report, these numbers are 5-year average age-adjusted rates.
12. The number of events that occurred for the state of Illinois. In this example, these numbers are 5-year numbers, or the number of events occurring in the year specified in #3.
13. The rate or percent data value for the United States. In this report, these numbers are 5-year average age-adjusted rates.
14. Healthy People 2010 Objective, if available.
15. Note about the indicator.
